## Trapped by agonizing pain for 40 years, now... **Suffering Mom Feels Like Dancing With Joy**

**B**ack in 1962, doctors told me **within five years, I would be confined to a wheelchair.** I refused to let that happen, but I paid for my determination with agonizing pain!

For 40 years every movement was torture. I couldn't tie my shoes. I had to use pliers to turn the ignition on my car. I even put my hands in melted paraffin wax to ease the pain. It helped—a little.

**My constant pain destroyed my marriage.  
But I wouldn't let it destroy me!**

To support my two kids, I worked as a secretary—but taking shorthand was agony and typing was torture. My family was my hands. They opened doors for me, buttoned clothes, did everything I couldn't do.

**After 40 years of prayer, I finally found  
blessed relief...**

I'll never forget the date. I started taking **Catherine's Choice® Aloe Vera capsules** on October 24, 2002. After one week, there was a tremendous difference. I would hardly believe my miracle.

My family can't stop talking about my improvement because they were all witnesses to my pain and my tears. Now here it is, almost six years later and I'm still pain-free. I know God had a hand in leading me to order. I intend on taking **Catherine's Choice®** forever. It's saved my life!

# Good News for Chronic Pain Victims: Your **ACHING DAYS** are Finally Over!

This extraordinary natural healer has been proven for thousands of years to **BLOCK pain and inflammation** and **RESTORE the energy** it drains away.

My Dear Friend,

Let's face it. Life isn't fun when you hurt. If you—or a loved one—live with pain every day, you know only too well what I'm talking about.

The stiff fingers that hurt whenever you dial a phone or write a note to your grandchild...

The sore right hip that sends an excruciating jolt of pain up and down your leg every time you take a step...

Or maybe its the creaky, swollen knees that make things you normally love to do—like walking the dog or shopping with your friends—nearly *impossible*...

Now *that's* what really makes us feel “elderly” long before our time.

I saw firsthand how chronic pain stole so much joy and happiness from someone dear to me. For years, my heart broke as I watched my beloved late wife, Catherine, battle agonizing pain every single day. In her case, it was recurring kidney stones, 4 surgeries (one to remove a kidney), as well as a laundry list of other crippling health problems.

And like you, she tried anything and everything to find relief.
