Publisher, BOTTOM LINE BOOKS

Dear Health-Savvy Friend,

Every year, lifesaving cures and healing treatments are discovered, tested, refined and verified in top research facilities around the world.

Yet they'll never see the light of day...

Why? Because the drug giants — along with their cronies in big-money medicine — do their utmost to clamp the lid on them. Even worse, they work in cahoots with the FDA, pushing their pills on TV, on doctors, on unsuspecting patients, and on anyone else who is desperate and willing to listen.

Year after year, the costs of your health insurance and medicines spiral out of reach. Yet Big Pharma, along with bought-and-paid-for Washington lobbyists, invest billions of dollars in bogus cures that are not only expensive... but also downright *dangerous!*

Doubtful? In the next few pages...I'm going to prove it!

For example, explosive studies prove this best-selling diabetes drug not only boosts your risk of heart failure... *it also*

weakens your bones! The FDA demanded a “black box” warning on the label, but the drugmaker still tries to shove it down the public’s throats... *See page 15.*

What about all those generic drugs health insurers force us to buy? Sure enough, eye-opening studies show that many of these bargain versions are *less* effective, *chock-full* of fillers, and cause *more* side effects! *See page 16.*

Osteoporosis drugs are a gold mine for drug companies and the TV networks dependent on their advertising. But hushed-up research shows that some of these drugs can cause severe joint pain, stomach ulcers... even *jaw deterioration!* *More on page 7.*

Meanwhile, mainstream fat cats muzzle the better, cheaper, more effective alternatives...

Why? Because if this news ever drifted down to the general public, *it would cost them billions of dollars in profits!*

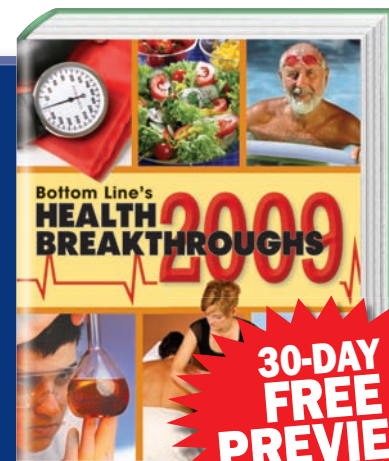

Time after time, the buried breakthroughs you’ll discover in this Special Report make mainstream medicine’s latest crop of designer drugs look like hoaxes, and expose their hyped-up miracle drugs for the dangerous scams they are.
