YEARS of Pain GONE!

And Judy's garden is more beautiful than ever.

"I can play 18 holes of golf without a twinge of back pain."
— Andy R.

You've tried everything for So why are you still

Dear Soon to Be Pain-Free Friend,

Do you always take the elevator because even one flight of stairs is intolerable on your knees and hips?

Do simple household tasks like replacing a light bulb leave your wrists and fingers throbbing in pain?

Or, does your aching back holler at you in pain when you even attempt to lift and carry a suitcase?

Finally, does joint pain and sleepless nights make you so irritable that friends and family members steer clear?

If any of this sounds familiar, you aren't alone. And *I bet*

you'd just about anything to halt the never-ending pain.

You've considered risky prescriptions, painful injections, over-the-counter meds, and tons of natural remedies, too.

And while many of these solutions offer some relief...the aches and pains never really go away. That's because they do nothing to address what's causing your pain to begin with!

So if you're tired of conventional medicine's Band-aid approach to joint problems, I have some exciting news.

Finally—there's an amazingly effective remedy that can...

**Speed PURE REPAIR POWER
directly to your joints
rebuilding cartilage... renewing
lost flexibility... and rejuvenating
your range of motion.**

It's a remedy that's backed by research conducted by Stanford, Harvard and other prestigious medical institutions.

Even better, it's been shown in human, double-blind clinical studies - *the gold standard of medical research* - to...

**“Relieve 98% of pain in just weeks”
and help you enjoy active living again!**

I'll explain more in a minute, but first allow me to introduce myself. My name is Dr. Darren Farnesi. I'm the founder and Medical Director of Medical Age Management,

Your results may vary. These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease. You should always consult with your physician before using these or any such products.

your awful joint pain...

hurting?

Stanford scientists discover a surprising solution...

my practice in San Diego.

Thousands have trusted me with their health and serving them has been an honor. Today, I hope to reach even more people that are suffering with almost-constant joint pain – people like you. I know exactly what you're going through, because...

I've suffered with non-stop joint pain, too.

I suffered from chronic knee pain and stiffness caused by football and hiking. I was born with flat feet, which predisposed my knees to injury.

The most difficult thing about this chronic pain and stiffness was giving up all those things I liked to do for fun... like skiing, hiking and working out.

I'd probably **STILL** be in pain today if I hadn't come across this groundbreaking news.

If you want to learn more about natural pain management... then hear me out. Because what I am suggesting doesn't require any special visits to medical clinics, doctors or hospitals.

You can accomplish this by relaxing at home!

Continued next page...

Meet Darren Farnesi, M.D.

- Medical Director of Medical Age Management, Inc. San Diego, California.
- Voted one of San Diego's top doctors, 2008
- Certified in Family Medicine
- Advanced Fellow, Anti-Aging, Functional and Regenerative Medicine
- Diplomate American Board of Anti-Aging Medicine

Dr. Farnesi received his medical training from the University of California – Irvine, Stanford University, and SHARP Grossmont Hospital in La Mesa, CA where he served as Chief Resident. He has also been an investigator in clinical trials for new medical treatments since 2001.

Dr. Farnesi knows how well *Reprive* works, because he takes it himself!

"I suffer from chronic bilateral knee pain due to medial meniscus removals from injuries sustained in 1990 and 1994. I now have mild arthritis in both joints due to the lack of the meniscus cushion. I suffer from some type of pain on a daily basis – a twinge, a little stiffness, a small ache if I'm in the wrong position, etc.

"I have noticed that since being on *Reprive* I'm having a lot of symptom-free days now. I am NOT a fan of taking anti-inflammatory medications such as ibuprofen, etc. on a regular basis so this is a very nice option for me. I plan to continue taking it!"

“*Reprive* attacks your pain on **MULTI** That’s why it can bring you **AMAZING**, long

However, pain is a very stealth enemy. You have to attack it from multiple levels in order to experience total relief.

Which is why we added this next unsung hero to the *Reprive* formula. It’s often called “the mineral of life” and for good reason: plants can’t live or grow without it. Dr. Rex Newnham discovered that people in countries with soil low in this mineral had a higher incidence of joint problems.

This lowly mineral is called boron. And modern science shows it’s critical for building and repairing joint cartilage.

“71% show improvement”

In a 2-week, double-blind, placebo-controlled human study³ researchers reported that 71% of the people taking boron experienced improvement in their joint pain. Plus, their physical function

3 Human Study – Small Pilot Double Blind Placebo Controlled Trial (Newnham Ess 1994)

IMPROVED by 25% within the first 7 days alone!

With this kind of track record, you can see why we added boron to the *Reprive* formula.

The final nutrient in *Reprive* is an extract of a resin found only in a tree in India. It’s a compound that was treasured by the

Three Wise Men – and modern research confirms its pain-easing wonders.

It’s called **frankincense**. And double-blind, placebo-controlled studies offered proof positive that it can...

“Promising for chronic pain relief.”

“Reduce joint aches by a stunning 62%”

In a 2004 study at NYU Medical School⁴, researchers recruited 30 people with knee pain and gave half the group a daily supplement containing 333 mg of Indian frankincense; others got a placebo.

4 Kimmatkar N, Thawani V, Hingorani L, Khiyani R. Efficacy and tolerability of Boswellia serrata extract in treatment of osteoarthritis

“My surgery was cancelled!”

Hank said “NOPE” to surgery and tried *Reprive* instead...

Hank was a hardworking U.S. mail carrier for the better part of 20 years.

It’s a good job, but it took its toll on his knees. He made do with over the counter remedies, but eventually, every step of his route hurt. His doctor prescribed surgery.

“I couldn’t afford to be out of work for a long recovery, plus I’d heard some scary stories about knee replacement,” he told us. “Still... I was in pain, so I had the doc pencil in a date.”

The next day, a co-worker told him about the pain-relieving benefits of *Reprive*.

“I decided to give it a go ... kind of last ditch effort before I went under the knife. Boy, am I glad I did! The pain practically vanished within 2 weeks ... surgery cancelled!”

Today, Hank is walking his route pain-free thanks to *Reprive*!

Individual results may vary.

PLE levels. -term relief!”

Los Angeles Times

“A potent painkiller in
Chinese medicine”

The results? Researchers stated:
*“ALL patients reported a decrease
in knee pain, increased flexion and
increased walking distance. The
frequency of swelling in the knee
joint decreased as well.”*

According to the Arthritis Foun-
dation, the special compounds in
frankincense can *“prevent cartilage
loss and inhibit the autoimmune
process. It’s a powerful treatment for
all types of joint issues.”*

University Research Confirms
it: the combination of corydalis,
silymarin, boron, and frankincense
is the tested solution for your very
worst pain.

You get all of them in **Reprive**...
in the same dosage levels shown in
studies to deliver the best results.

You can almost FEEL your joints say, “aaahhh!”

Let’s face it. Life isn’t fun when you
hurt. **Just imagine being able to...**

- Walk the dog as long as you’d
like without wincing...
- Sleep through the night without
tossing and turning...
- Play with your grandkids without
‘feeling it’ the next day...
- Walk up and down steps easily,
and without a bit of pain...

YOU BE THE JUDGE!
